DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on May 10, 2004.
2. Claims 1-18 are pending in this action. Claims 1, 7, 13 and 16 have been amended.

Allowable Subject Matter

3. Claims 1-18 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance:

As per independent claims 1, 7, 13 and 16 the applicant teaches a voice coding method/apparatus based on analysis-by-synthesis vector quantization and a voice decoding method/apparatus for decoding a voice signal coded by a voice coding method based on analysis-by-synthesis vector quantization. The applicant's arguments are deemed to be persuasive. The prior art of record fails to teach or fairly suggest in combination with other recited limitations, the number of non-zero amplitude values coding an input speech signal remains constant even if one or more of a lag value and frame length of the input speech signal change. Therefore, claims 1-18 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
